1-2" each

Attila chery on  
flycatcher on (up the)

flycatcher tried several  
couldn't get success

812 pr greenlet 300 ft

1 got a fruit by hanging  
a swelling 3"  
possibly a secret

830 pr R. 2 honeycreep  
No fruit

REU 600 ft - 2 fruit  
swallowed  
1 seed

850 L. Greenlet & pr - Greenlet  
REU grabbed soil  
& left  
tree

920 - missed exactly

small

10,000

Late Morning 4/24 I

Walked to FCP church for

description - saw SEAVE guard

including the beer-sipping ass. -

for the last time. stopped off at

a DR bookstore + books

2 history, Minister booklet + script.

Dropped stuff off at Arturo + Adela's

& left (photos of Cruz Parlane sign)

& a great bedroom mural (outdoor)

of Mica stuff at restaurant >

in town N. Super Bines Mark

of Chongchuker -

Young proprietor knew I was  
from San Vito but didn't  
know anyone in particular -  
he knew because of car -

He had a vague notion of  
earthday - but was blank when

I asked him about ceremonies

I picked up a hitchhiker - a  
young Myan guy at Cruceiro  
to Coche. He also knew

about E-dy - but nothing

happened in FLP where he was

& he wasn't too into talking.

I went to Punta Laguna  
Some boys & a young Myan man  
were hanging out in slope at  
entrance. They didn't know  
about E-dy & recommended  
I talk to Sr. Siripia when he  
returned.

I looked for Willem in  
Telam Puchlo but he was  
not home.

→ ~~The next~~ Tree at Ranch  
is in flower - for now no  
fruit

6:00-8:00 looked for migrants

around PM - saw 2 ♂ RT hummers

by Hotel Eden, 1 at Villarta Rd]

1 Bl + W at Botanical gardens

a Gray kingbird at Villarta Rd

A Eastern kingbird on Rd

to UNAM station. H1 7-2

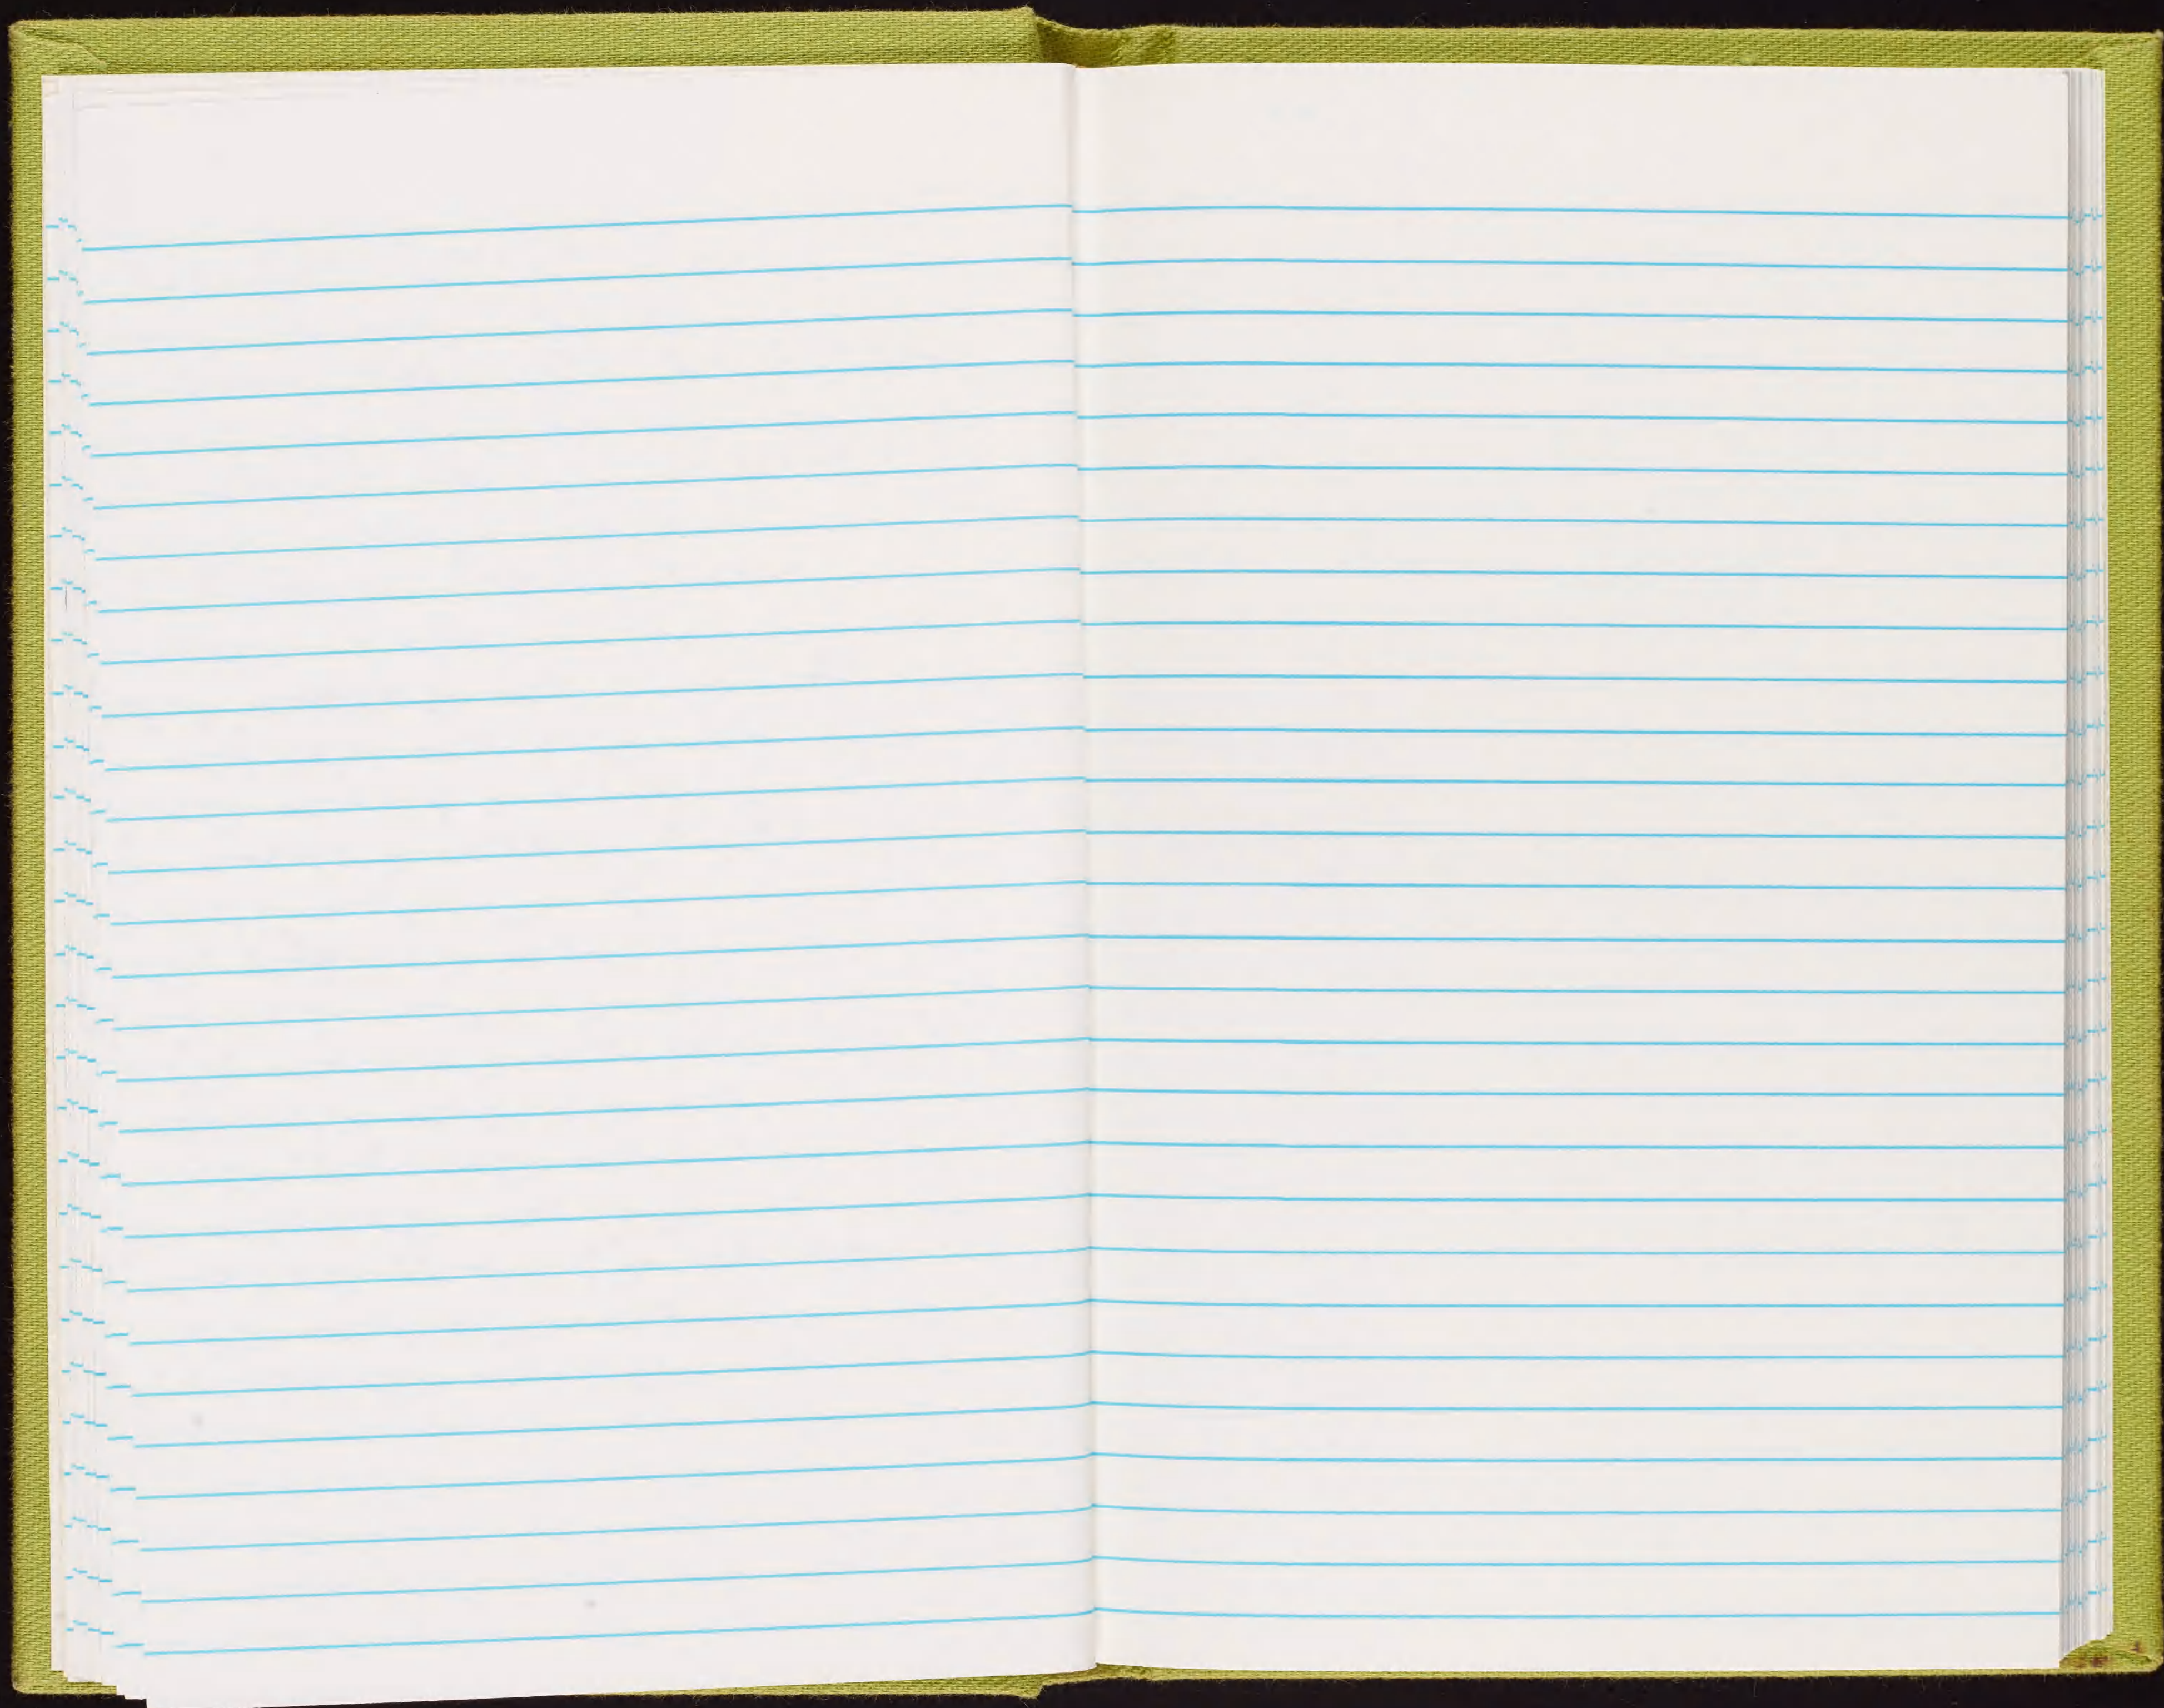

MWishley - Saw 5 Yellow (mossy)

That's about it! Lined trees

at Botanical gardens Myrcianthe

Talisia

1. Trip down — belting traffic  
through at Green airport  
signs for Xerox ~~Hotel~~ Hotel,  
etc.

broken down Volkswagen  
with Meyer bird down

2. Cold cold steel — crowded  
whole family song — steel look  
the popular generation where  
pinkish ~~dark~~ day to sell  
wired items like superlatives  
orange questions, a choice of  
like on concentration

Picky chicken, ran out of song  
you <sup>me</sup> extra proud to sell

his run rural bias, had to  
be cleared.

I spent entirely with the  
Cumbi Limbo trees of Simbion.

<sup>Sat</sup>  
Myrtle has had fruit / low income  
don't to complement the available  
exercise regime.

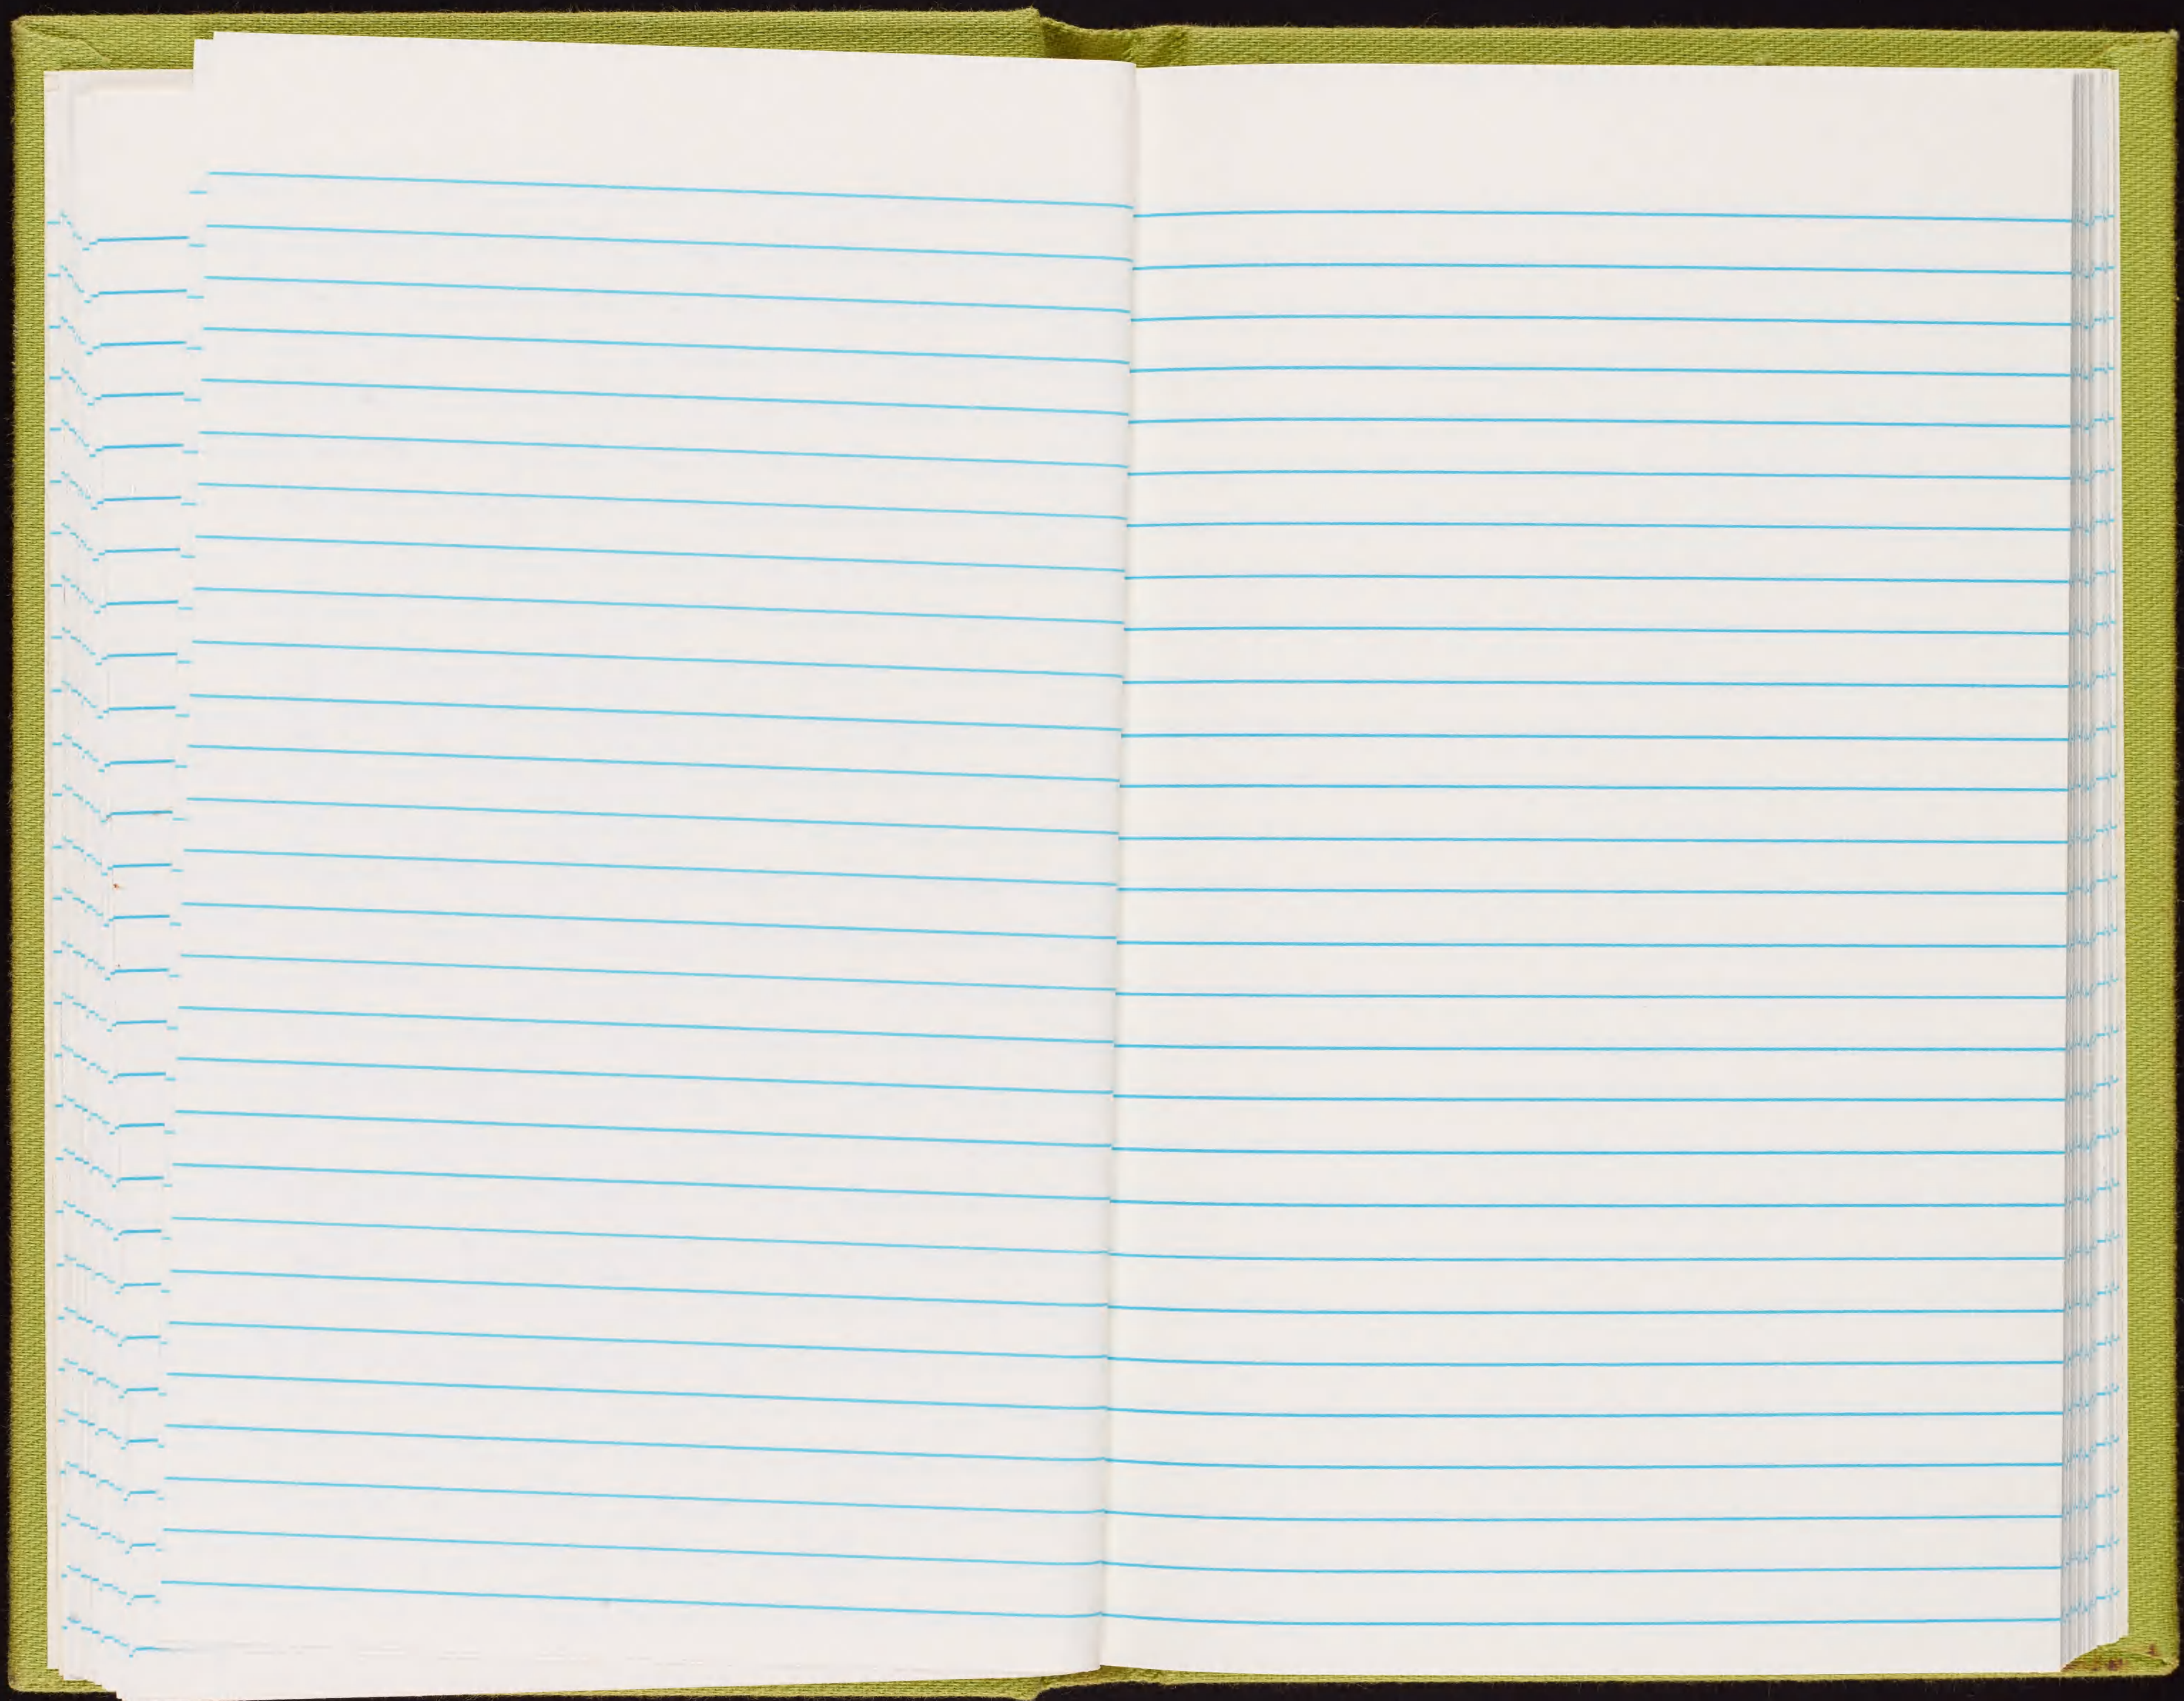

Yucca, starts out like a row  
thanking crabs. Galt on  
Mexico <sup>with Miller</sup> ~~weaving~~ but long  
the border skyward.

Thurs:  
~~Myrtle~~ It's like you is  
good, the next day should be  
great!

The Earth is a  
seriously practical watershed  
bottle ~~to~~ to balance

Economic well-being + ecological  
balance - then it is a war  
that has been fought for  
millenia in Quatern Roo

Talked to people at local  
stand - had heard of Bill by  
(television) no group is organized  
to do anything.

Went to 24hr Restaurant -

Saw a picture of Dierke -

Know about it - didn't know

got it because it is celebrated

every year - why not 20 years?

Small "punk" in zone

Hotels - to present - 2

new books

Publ. for world

Environment by

10 - 12 - festival at

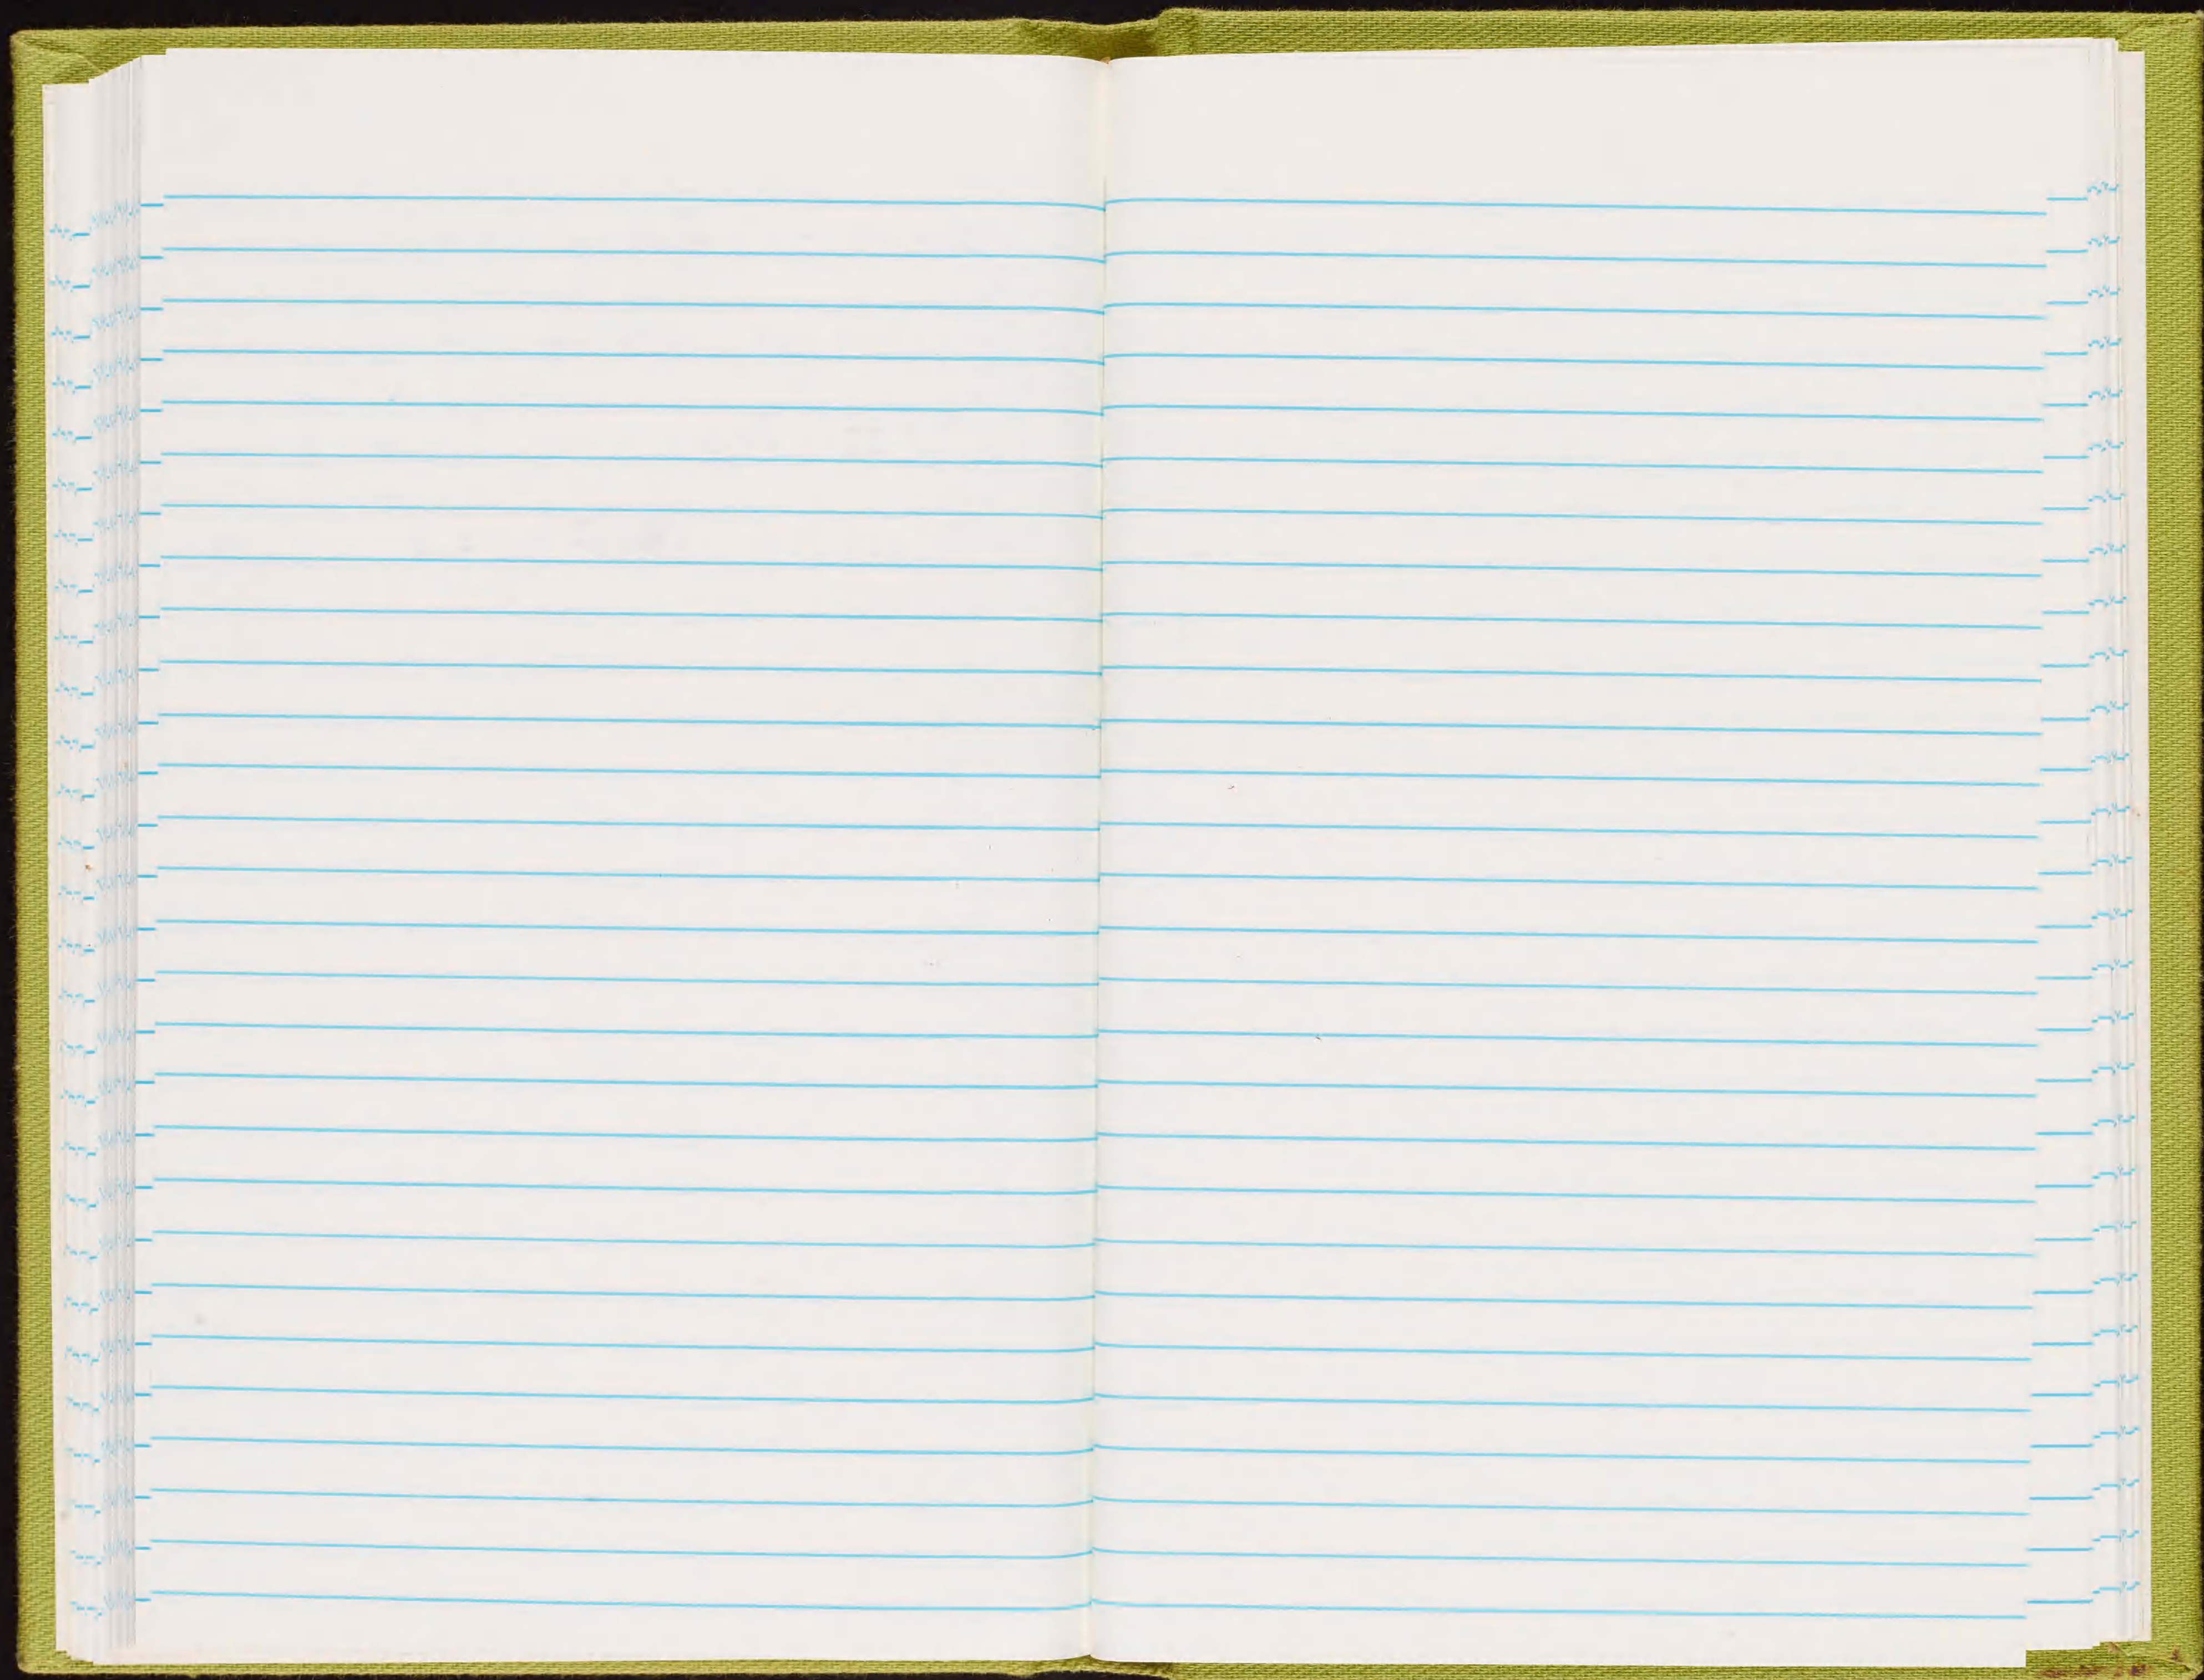

Chungche

12-1 lunch time

21-33 Nap

3:30-3:45 ~~Q&A~~ hours

## Migratory Bird Facts

- I An estimated 3 billion  
Birds migrate from Eastern U.S. &  
Canada to the Tropics
- II Most of these birds live  
outside of urban & suburban areas
- III 60-80% of eastern forests  
being birds migrate to the tropics
- IV 40-50% of the birds  
who live in Yucatan Peninsula,  
West Indies are migrants from  
N. America

II ~~At~~ Many birds east residents  
in N. America, keep the young  
primarily in captivity.

III Up to 40% of the stay camp  
of captivity is removed by birds -  
mostly migrants.

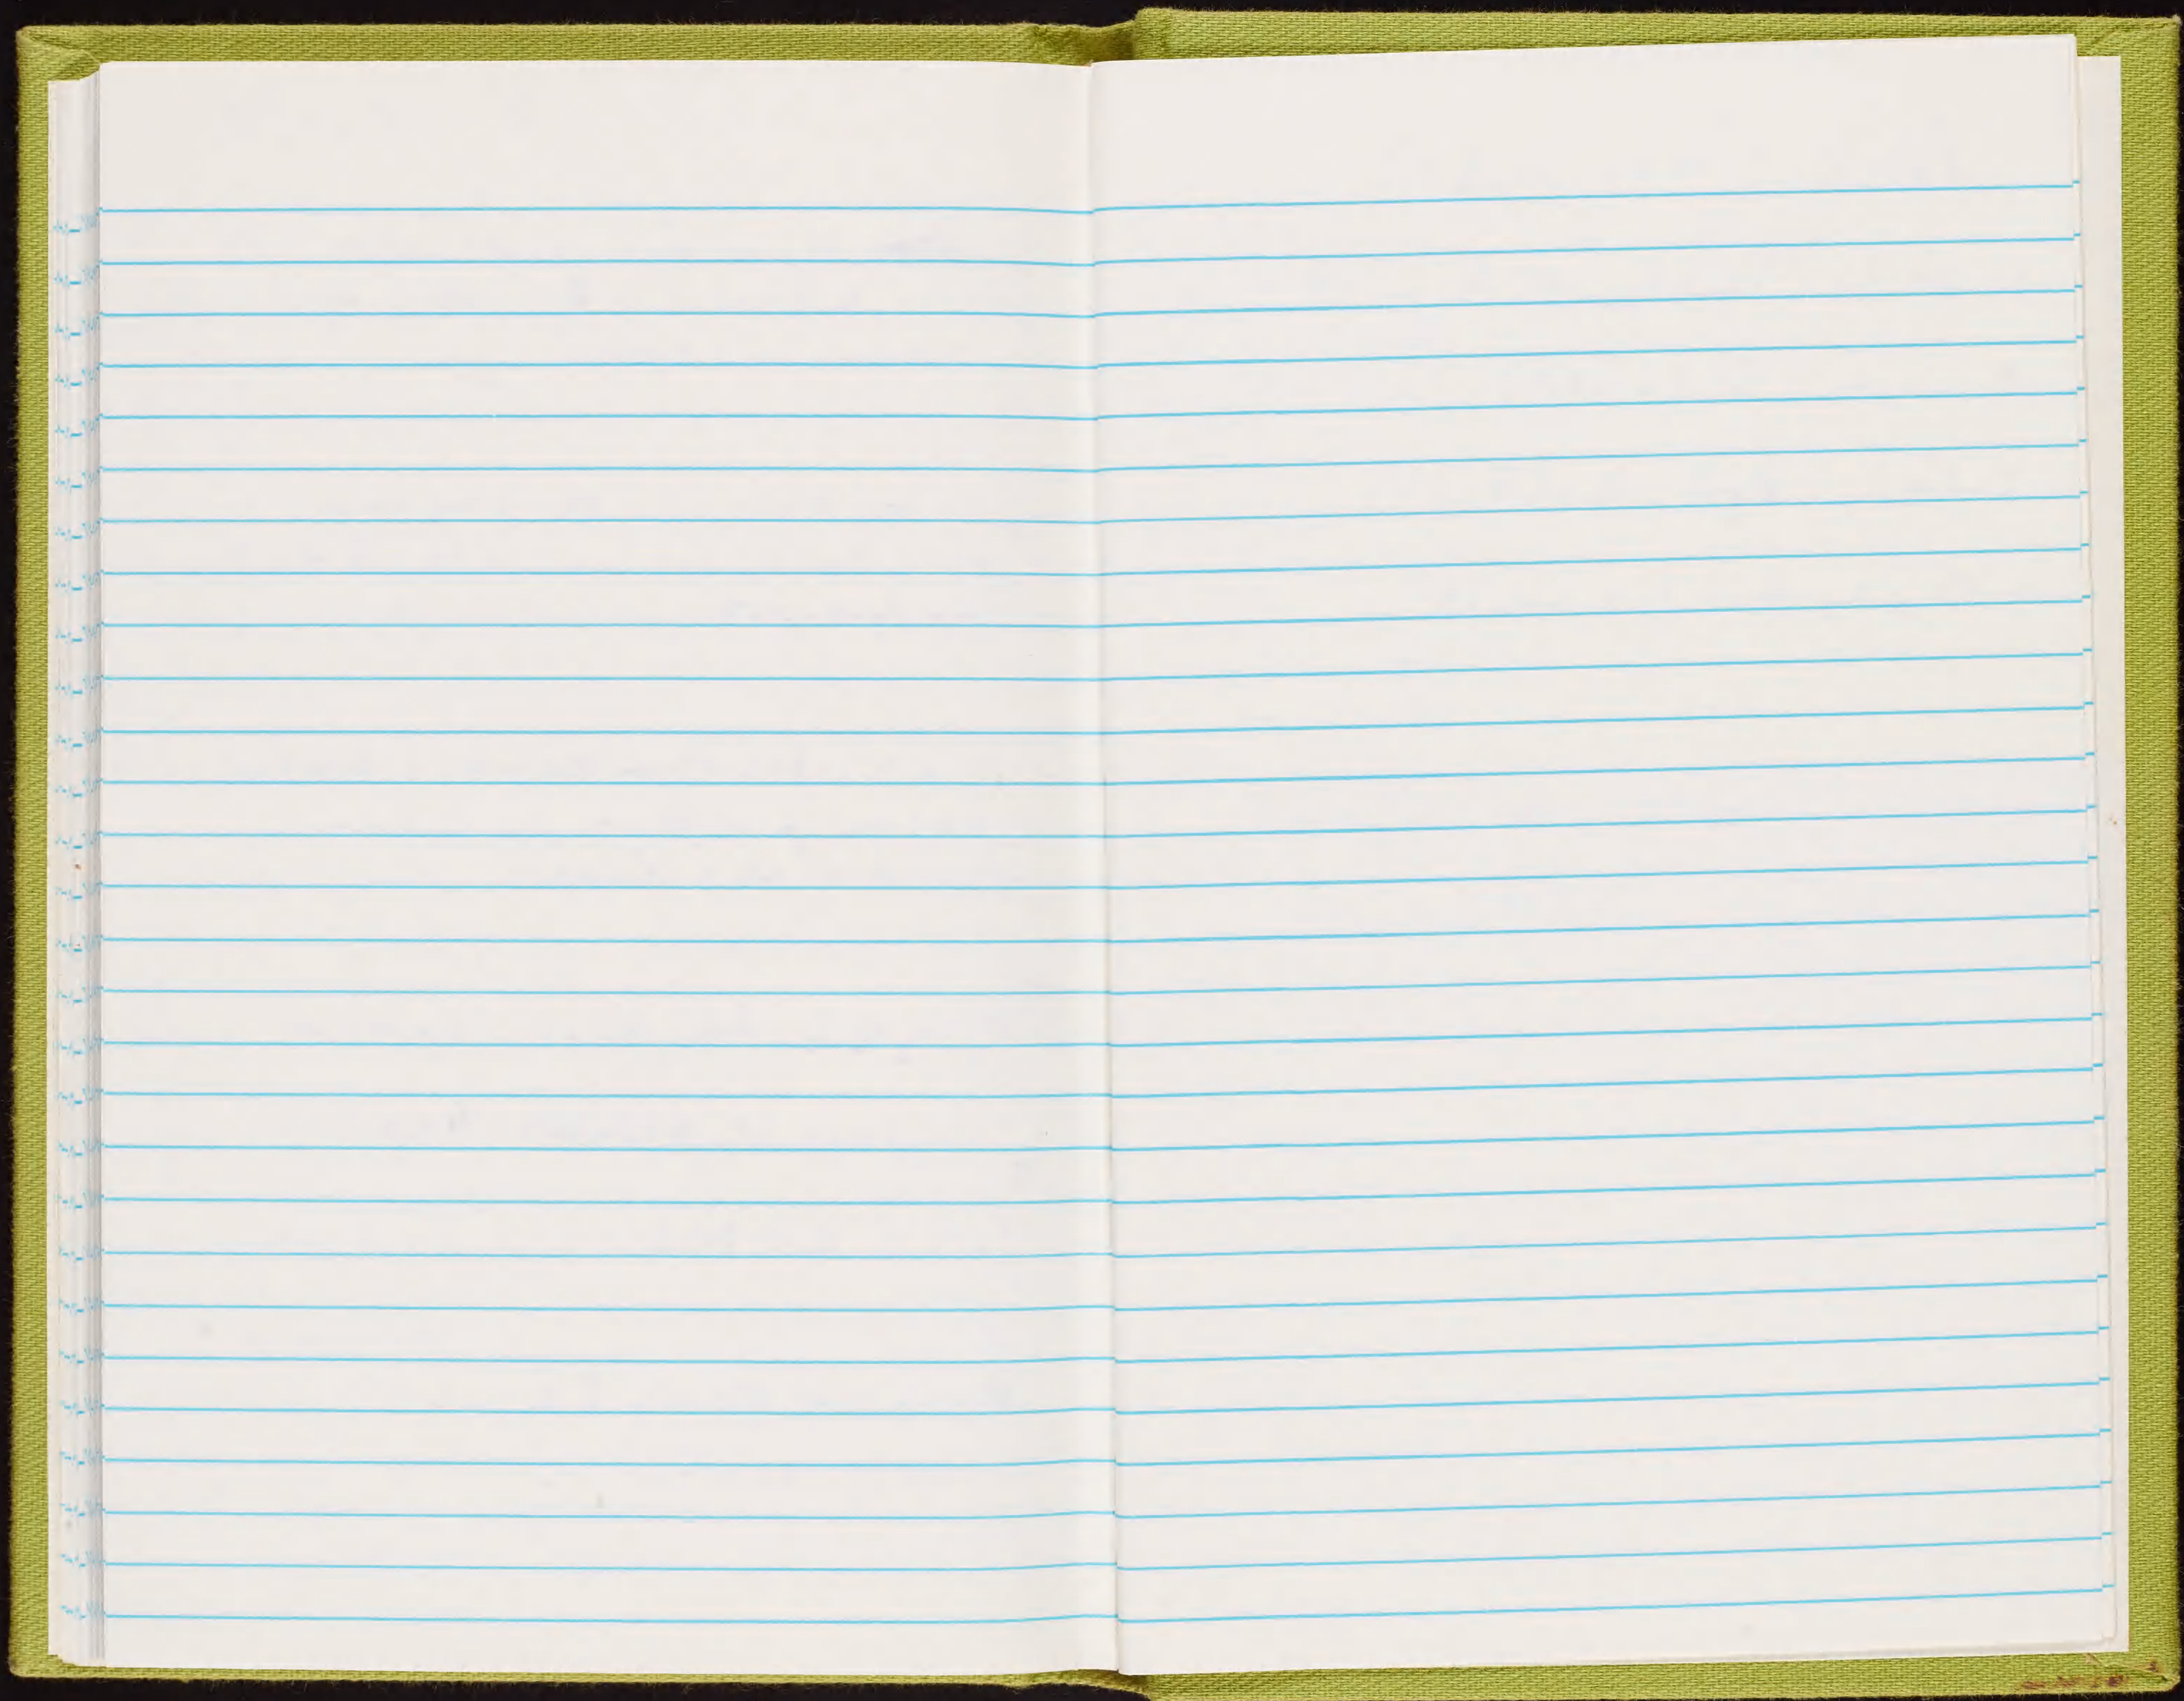

IV Migrants, Birds have declined 1-2% (year  
over the past Decade or so) because  
Birds don't sing, ~~live~~

V Many Birds have declined up to 10%.

VI is signs of established forest  
with a R.C. Park

Many or many Birds which  
live in Mexico

Need to be done

1. Spanish translation

2. Logo

3. Summary letter

4. Migrating Bird fact sheet
